OOWA OSHA Registration Form

Please register by March 7, 2018.

This training class will be approved for 6 hours of Ohio Department of Health CEUs for registered installers, service providers, and septage haulers to fulfill their annual registration requirement.

The class is Onsite Sewage Treatment System industry specific training that will help workers and employers develop tools to identify and mitigate exposure to excavation & trenching safety hazards. This class is also intended to raise worker awareness of the OSHA Construction Focus Four hazards in the Onsite industry.

Excavation and Trenching Safety (4 hours)

OSHA Focus Four (2 hours) includes:

Falls
"Caught in" or "Between"
Struck-by
Electrocution

Each section will include the following:

- How to identify common hazards
- How to protect against hazards
- How to recognize employer requirements to protect workers
